Bringing together over two centuries of travel experience, Explore Greece has been set up by a team dedicated to developing holidays that ensure our customers can enjoy new and different ways to discover Greece.

Our programmes have been created by experts with intimate knowledge of both our mainland and our islands. We run immersive tours which combine both famous places with those off the beaten track gems which often prove to be the highlights of the journey. Our extensive local connections enable us to provide the most knowledgeable guides to facilitate an unforgettable journey.

We have a reverential ethos that revolves around the deepest respect for our history and culture and our ambition is to offer responsible travel that creates truly memorable experiences. As such the Explore Greece philosophy is to 'give back' to the places we visit in order that they too can enjoy the benefits of tourism. We believe that once communities see how sustainable travel can help support their local ecosystem, they will help preserve their heritage, keeping it alive and thriving.

SUPPORTING A WIDER VISION OF FUTURE GREECE

We directly donate 5% of our profits to the MALU Foundation which supports various Greek charitable foundations.

In this way we help Archipelago with their work across the Greek seas, and Ark of the World which protects single mothers and children in need. Furthermore, the Foundation organizes beach clean ups to tackle microplastics in the Greek Seas and offers support to people affected by wildfires.
